Examiner's Comment and Reasons for allowance

1. The replacement sheets were received on 9/30/03. These drawings are acceptable.
2. The IDS filed 12/8/03 has been considered. However, FR 23951353 has neither been considered nor examiner initialed because an explanation of relevance has not been provided.
3. The following is an examiner's statement of reasons for allowance: the prior art of record neither teaches nor renders obvious all of the claimed limitations including coating the substrate within the same mold cavity, i.e., the mold cavity has the same volume for both the substrate molding step and in-mold coating step, and the mold halves are at a substantially fixed distance relative to one another for both the substrate molding step and the in-mold coating step; and preferentially in-mold coating the substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
